- Designed, Developed and Tested **Bots** for Tasks using UiPath.
- Understood the execution of **Macros in excel through UiPath**.
- Gained knowledge of exception handling across various **RPA tools**.

IT Skill Sets:

- Automation Tools - UiPath, Blue Prism, Open Span, Automation Anywhere
- Operating Systems - Windows
- Programming Languages - JAVA, C#, Python, SQL(Basic).
- Data Access Layer - JSON
- Known IDE - Eclipse

Certifications:

- **Machine Learning**, from **Stanford University**, through Coursera.
- Certified on **Basic and Advanced UiPath**.
- **Blue Prism developer** accreditation certified.
- **Automation anywhere** essentials certified.

Project Profile :

Project 1: Lease Termination

- Client: **Ford**
- Tool used: **UiPath**
- Description:
 - Lease Termination is the ending of lease dealing between customers and dealers for the Ford vehicles. It has different types of termination method for ending of lease. The manual process team go through different types of checks for ending the lease with customers and dealers provide some benefits to customers if they go for early termination.
- Responsibilities: (Handled Change requests which is already in production)
 - Used **Terminal activities** for getting values from Main frame application.
 - Did the consolidation for 13 bots and saved in one specified folder.
 - Worked with orchestrator queues.
 - Modified the code according to the requirement.

Project 2: Auto Emailing China

- Client: **Ford**
- Tool used: **UiPath**
- Description:
 - Auto emailing China is the process where Ford have to send the email to the dealers about VIN numbers description on daily basis.
- Responsibilities:
 - Used VLookup in the excel and extracted the data from another excel sheet.
 - Sending the emails through the generic email.
 - Handled the case if bot stops running at middle of the process.
 - Deployed the process in Orchestrator and its running successfully in VDI.

Project 3: Project Code Creation

- Client: **Hyperion**
- Tool used: **UiPath**
- Description:
 - Project Code creation team is responsible to create project code and upload details on GFS Portal. They get ticket request which contains all required details of project. Using that file project code is created for billable and non-billable projects. Once code is created, important details with project code is sent via mail.
- Responsibilities:
 - Took Part in the **business discussions** with the Capgemini Finance team for gathering of requirements
 - Used **Web Automation** for navigation, data extraction, Entry of data to required fields.
 - Saving attachment from email files to local and extract zip files to desired folder.
 - **Deployed the code** on VM platform.

Project 4: Finance COE & SFC Central

- Client: **Capgemini Finance Department**
- Tool used: **UIPath**
- Description:
 - Finance COE (Centre of Excellence) team prepares and publishes group reporting data of various SBU's financial budgets on a regular basis (monthly/quarterly). They were doing all operations manually by human interaction. By **applying Automation**, we helped them to automate their report generation. I have worked individually for automating reports.
- Responsibilities:
 - Involved in **End to End development** of Business Process using RPA UiPath.

- Worked on different Excel activities for various operation such as **pivot table** updating, addition of new column to multiple tables and adding new data from master file, updating graphs, etc.
- Created **macros for excel sheets** to apply filter, unhide all sheets etc.
- Updated **monthly summary** Word file by adding charts, data obtained by excel file.
- Sending of mails by BOT for exceptions, successful mail in desired format.
- Designed, developed, tested and **deployed Bots** for tasks using UiPath.

Educational Qualifications:

B. Tech with distinction, in Electrical and Electronics Engineering from JNTU-Anantapur, in 2015.

Work Experience :

- Worked as Senior Software Engineer in Capgemini India Pvt. Ltd from April-2016 to October-2018.
- Working as Automation Engineer in Algonox Technologies pvt Ltd from October-2018 to till date.

Personal Details :

Nationality : Indian
Marital Status : Unmarried

Languages : English, Telugu
Date of Birth : 3rd June 1994

Place :

Date :

(Chandana Ramagouni)
